Innovapath, Inc. is a recruiting and personnel solutions firm committed to bringing together top-end professionals and quality opportunities. We truly understands that consulting is something that depends on mutual benefits for all parties involved. Innovapath,Inc.is recognized for its high quality staffing solutions.

How We Do
shutterstock:
http://www.shutterstock.com/pic-133099646/stock-photo-notebook-training-concept.html?src=lb-22967672
we are committed to separating ourselves from the competition not only by providing top of the line consultants, but also through an extremely thorough screening process, a commitment to reasonable rates, and by taking the time to ensure that all parties involved are satisfied in order to secure a long and productive working relationship.

After all, consulting is not simply about requisitions, rates, and durations. It is about a people-first approach aimed at accomplishing a common goal. Therefore, Innovapath, Inc. takes a partnership approach to each and every solution at hand**.**

We provide full cycle recruiting: sourcing, screening, interviewing and hiring of qualified professionals for local and national companies.

What we provide:
shutterstock:

Testimonials (Done)

CORPORATE TRAINING

Trained EMC Corporation Kazeon QA team for their migration from Watir-Ruby to Selenium WebDriver using Java.

STUDENT FEEDBACK

It's been an outstanding training. Thanks to his excellent presentation skills. Toughest concepts with simplified examples turned the tedious task of learning in to whole lot of fun. I was truly motivated to learn all the latest in these technologies with all his due encouragement. Hats off to Sampath and team for a job well done! Keep up the great efforts.

Anuradha Koduri

Sampath's training is very easy to follow and comprehend. It is not only limited to Java and Selenium but its in depth. It covers all the tools(CI, version control, bug tracking tools) and knowledge needed to start as a newbie in this field. He is also always available to answer any questions or if you need quick intro on any new tools or topics. I highly recommend this training to others

Pallavi

Excellent teaching skills. covered all parts of the course in a concise manner. very nicely presented PPT slides for quick refresher guide In class demos are the highlights of the classes. People should enroll to get trained on all the latest testing techniques.

Saai Ananth

It's very simplified,effective and most of all starting from basic level and going towards advance level in every topic. Anybody from Non-IT background also can do very well by following these recordings regularly. I would say the lessons are excellent especially starting from scratch and in every class reviewing the previous lesson is really beneficial.

Sonia
